

Plumbing.

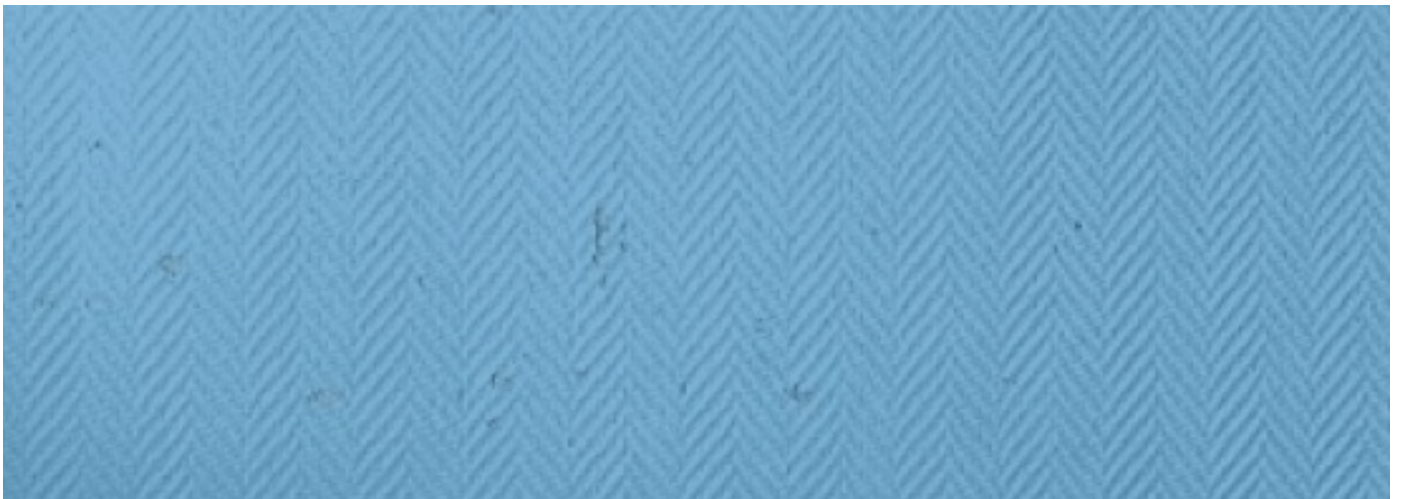

Our plumbing team has extensive experience in dealing with reactive tasks, installation works, servicing and planned preventative maintenance for plumbing and heating systems. The fully qualified engineers offer full service plumbing support for building owners and managers and aim to minimise disruption to the building occupants and get your plumbing back to normal as quickly as possible. Testimonials.

"In AFM we now have one supplier whereas before we had several. I feel we are now much more on top of general maintenance and issues arising are dealt with in a more timely manner than before. All in all I am delighted with the relationship we have built with the team at AFM."

Peter Creasey, Managing Director
