Server Room Audits.

The AFM Service Room Audit service provides valuable information to the safe operation of your computer room. Imagine for a moment the consequences of a power or air conditioning failure in your server room: angry customers, lost business... The total loss could be counted in the millions, and your business may take months to recover.

We specialise in:

- **Electrical consumption efficiency**
- **Hot spot detection**
- **Phase loading management**
- **Room integrity testing**
